Official information request regarding work undertaken repair mains over the past several years.

Thank you for your official information request dated Sunday 23 June 2023.

We have considered your request in accordance with the Local Government Official Information and Meetings Act 1987 (the Act) and determined that we are able to grant your request in part.

The information you have requested is enclosed in our email to you. Pursuant to Section 7(2)(a) of the Act, some of the information has been redacted as it is personal about private individuals.

On 4 July 2023 a Wellington Water Limited staff member spoke with you, confirming that there were no water leaks that might be causing the periodic water seepage issues you have been experiencing at your property.

You have the right to seek an investigation and review by the Ombudsman of this decision. Information about how to make a complaint is available at www.ombudsman.parliament.nz or freephone 0800 802 602.

Ngā mihi,

**Acting Group Manager, Customer Operations Group**

PIVI		<o:p> </o:p>
		Thank you for bringing this to our attention. <o:p></o:p>
		<o:p> </o:p>
		Due to maintenance work at Waterloo Treatment Plant we are drawing more water from the Wainuiomata and Orongorongo rivers at the Wainuiomata Water Treatment Plant for supply to Wellington. The river supply has a higher level of Geosmin, a type of non-toxic algae, which is more prevalent in the summer months. <o:p></o:p>

<o:p></o:p>	
If your water is tasting or	
smelling earthy but shows no	
discolouration, cool your water in a jug in the	
fridge for 30 minutes as this	
may improve the taste. <b><i><span style="font-&lt;/th&gt;&lt;/tr&gt;&lt;tr&gt;&lt;th&gt;size:14.0pt"><o:p></o:p></span></i></b>

WCCSR-715801	Selected	Beacon Hill Road, Strathmore	<ul> <li>Kia ora Wellington Water and WCC</li> <li>I am getting in touch as am seeking some information and clarification. Please note that this is not a request to fix a leak and is not a job to fix.</li> <li>My partner has lived at our property on 34 Beacon Hill Road since 2000, I have lived here since 2008.</li> <li>Throughout this time period we have had repeated issues with water coming through our property. You will note this on our records. Repeated events are listed clearly on our LIM.</li> <li>This water is typically most apparent at the back of our laundry, coming off the base of a large concrete retaining wall. Typically this flow of water disappears when there have been repairs to water mains further up the hill. We are in a gully below a water tower at the top of Beacon Hill. We are also below a block of Kainga Ora Flats. You will note on our flood map that there is a flow of water with rain across our property, and though this is the case, the constant water off the retaining wall is markedly different in its nature</li> </ul>	4	6/23/2023 7:31:22 PM		Assigned to and emailed	Assigned to and emailed to further investigate the customers 3 requests if there is anything further we can do. RICH TEXT

		(e.g. it is constant and accumulates in volume over		
		weeks/months/years until it suddenly stops).		
		In the past when this water appears we have		
		repeatedly called in requests for a mains leak to be		
		investigated. The water is then tested and usually		
		found to be below the threshold for fluoride or		
		chlorine that would identify it as mains water. This		
		has previously been the case even prior to a leak		
		being identified on our neighbour's property (e.g. we were very close to the source of the leak and it still		
		was not registered as a mains leak). Instead it has		
		typically been identified by WCC/WW as "ground		
		water" leaving us nowhere to go to remedy the		
		situation. Subsequently we have spent a huge		
		amount of money on drainage to collect the water		
		and get it off our property.		
		In addition - a crib wall above our garage recently		
		failed following a mains leak directly above it. This		
		was clearly not weather related as the amount of		
		water coming out of the seep holes in the wall was		
		not consistent with the rainfall at the time - our		
		neighbour has video footage available from just		
		before the event that demonstrates this. He also		
		reported that his toby was aflood at the time the WW		
		attended the call out related to this event.		
		Sorry to be so nogative but as you can imagine we		
		Sorry to be so negative but as you can imagine we have been pretty frustrated with this continuing issue		
		that seems very challenging to resolve.		
		However - the great news is that the vast amount of		
		water that was coming off the bottom of our		
		retaining wall and in other parts of our property has		
		pretty much entirely disappeared. I noticed this for		
		the first time on Monday 26 June 2023. It might have		
		cleared up a bit earlier than this, but certainly there		
		has been a marked change in the last 2 -3 weeks.		
		However, there is still a reasonable amount of water		
		appearing on the steps beside our house.		
		My request is this:		
		1) can you investigate and confirm with me what		
		work has been done to mains pipe repairs over the		
		last several weeks in our area that might have solved		
		this issue for us? I note some new spray can marks		
		on the road near the Kainga Ora property above our		
		house? However, it is quite likely, and it has been the		
		case in the past, that due to our location, leaks may		
			I	1

	<ul> <li>be quite far away from our property.</li> <li>2) can you suggest a way going forward so that when this issue comes up again, we have a more reliable process to solve the problem? The current option of putting a regular job request in, testing the water and it being identified as ground water is untenable. It results in the degradation of our property and a huge loss of mains water.</li> <li>3) As part of this process - could an experienced assessor come and investigate the remaining water that is appearing on the steps beside our house?</li> <li>We would really appreciate your collaboration and support in regards to this issue. It has been a real headache for many years and now that the water has disappeared, it would be really great to identify a way to keep it that way.</li> </ul>				
				7/4/2023 spoke to 04/07 9:33:06 AM	I have rung and spoken to and informed her I have passed on here request for the work done in the to the OIA team. I have also discussed with her about doing acoustic sounding, I have asked RWL if this has been done and will advise once I have the info RICH TEXT

			5/29/2023	Private service leak - #30 Beacon Hill Road	Upon arrival, found that there was no immediate water leak visible on the surface at this address. I opened the manifold box that feeds #30 and even though the service was dry, it was making a noise which indicates a leak.
					I investigated further along the service and found that within the boundary of #30, there is water pooling and coming from the small bank within the boundary. This water is the leak on the service line that feeds
					#30 but as it is well past the manifold council asset and within property boundaries, it is a private leak.
					Please pass this job to read to follow up for the private leak

in quite a number of years.
The first time was a leak from one of the state flats
next door, and the second
time was from the toby at the top of our section before it was replaced. <o:p></o:p>
> <o:p> </o:p>
> I can't see where the
present leak is coming from.
All of the pipes for our water supply and drainage
are on the other side of our
section. I first spotted the new leak about two
weeks ago, but it has probably
been there for some time. <o:p></o:p>

	WCCSR-735028		Fault 28 Beacon Hill Road,	We have a water leak at the bottom of our section	Potable	3	RCVD	7/5/2023		7/5/2023	Note from Council	Address:
		Selected	Strathmore Park, Wellington 6022	near a now disused bottom gate. I don't think it is from any one of our pipes because they are all on the other side of our section. The leak has been there several weeks now. I contacted Wellington Water, but they required a video or pictures which neither my husband or I (at 83 and nearly 80) have the ability to provide. They suggested I contact you, for a separate logging because they are uncertain whether it is a separate leak from one next door at number 30 they are investigating or the same leak.				5:39:30 PM		5:39:41 PM		28 Beacon Hill Road, Strathmore Park, Wellington 6022 Open in Google Maps: https://www.google.com/maps/search/?api=1&qu ery=-41.3247511167,174.8277035
22 Beacon Hill Rd, Strathmore Park, Wellington, 6022	WCCSR-274895	WCC_PWP00312 1	Leaking Pipes 22 BEACON HILL ROAD, Seatoun- Miramar	Steady flow - Caller advised there is a fairly heavy leak coming down the bank opposite 22. Water is clear. Please attend.
