

Pinehaven Stream Improvements: Phase 2 Works: Willow Park

Upgrading and increasing the capacity of the Pinehaven Stream to reduce flood risk

Pinehaven Stream Upgrade: Phase 2 Works

What are we doing?

On behalf of Greater Wellington and Upper Hutt City Council we are upgrading Pinehaven Stream at Willow Park to reduce flood risk in the area.

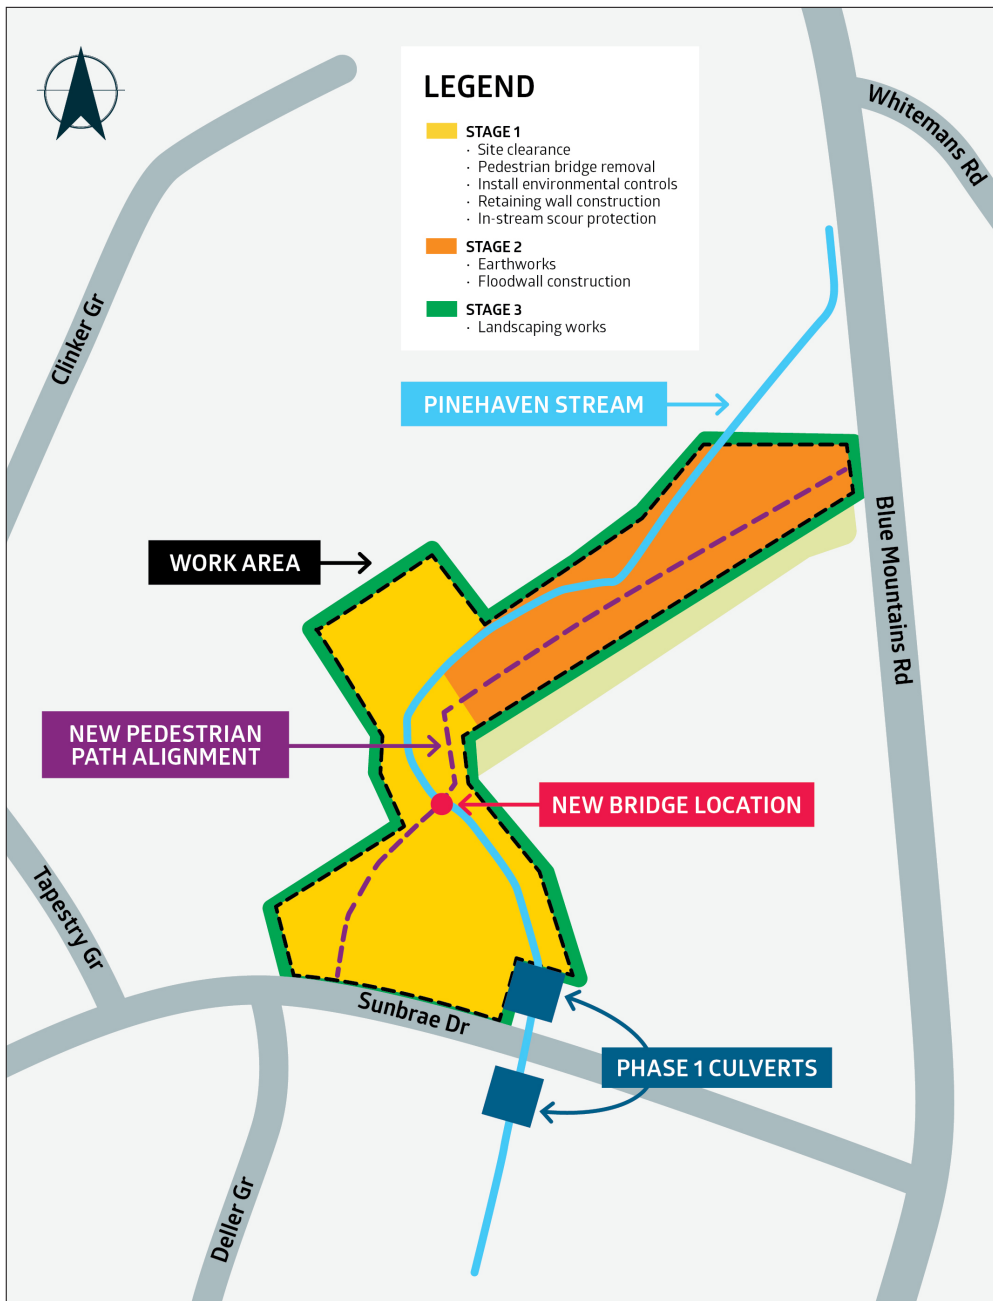

Work will begin in late March 2023 and take approximately 12 months to complete, with reinstatement planting completed during winter 2024.

Hours of work: 7am – 7pm Monday – Saturday. No works are scheduled for public holidays.

Works include:

- Widening the section of stream through Willow Park from Sunbrae Drive to Blue Mountains Road.
- Building new retaining walls immediately downstream of the Sunbrae culvert.
- Widening the stream banks (without retaining walls) further downstream, where there is more space available.
- Removing the existing pedestrian bridge over Pinehaven Stream at Willow Park and replacing it with a new pedestrian and cycle bridge linking to 4 Sunbrae Drive.
- Improving the pedestrian path through Willow Park.
- New and replacement planting of native trees and plants.

Pinehaven Stream Upgrade: Work timeline

What this means for you

Willow Park will be closed during the construction period. Accessways through Willow Park via Blue Mountains Road and the Tapestry Grove walkway will also be closed.

At times temporary traffic management will be in place for large vehicle movements delivering materials to site.

We appreciate your understanding and patience as we carry out this essential work.
